CONTENTS.

VOL. XXIII.

Page.

Aachen Railroad—Germany.... 347
"Abyssinian" Tube wells..... 281
Accidents on British railways. 521
Accidents on railways in Prussia..... 172
Adulteration of Portland cement..... 27
"Albert Victor"..... 260
Alloys of metals..... 262
American suspension bridges.. 111
Ancient roadway..... 290
Anemometer, constants of..... 341
Application of explosive agents 40
Archæology of the Cumberland iron trade..... 318
Arches of stone bridges..... 16
Architecture, iron in..... 106
Arch, stone..... 265
Area of the square degree..... 457
Arlberg railway tunnel..... 173
Art and industries of China... 343
Asphalt and bitumen..... 460
Asphalt in engineering works. 30
Atlantic cables..... 502

Balancing locomotive engines. 90
Baltic and German ocean canal 349
Bars, long and short..... 441
Batteries, galvanic..... 329
Beams, strength of..... 444
Beams, stress in..... 63
Belgian system of sinking shafts..... 504
Bessemer and puddling processes..... 435
Bessemer steel production..... 520
Bessemer waste utilized..... 519
Bitumen and Asphalt..... 460
Bitumen in engineering works 30
Blast furnaces..... 365
Blast furnace slag..... 131
Boat propelling..... 309
Boilers, preservation of..... 395
Boilers of the "Livadia"..... 350
Bonsilate..... 263
Book Notices.
Adams, Julius, W., Sewers and Drains..... 174
Bale, M. Powis, Wood Working Machinery..... 262
Barr, Wm. M., High Pressure Steam Boilers..... 262
British Iron Trade Association, Iron and Steel Trades 87
Bowser, Prof. Edward A., Differential and Integral Calculus..... 351
Burnell & Comstock, Architectural Designs..... 523
Douglas Silas H., and Albert B. Prescott, Qualitative Chemical Analysis..... 261
Frankland, E., F. R. S., Water Analysis, etc..... 175
Greene, H. A., Geology for Students..... 87
Holzapffel, John Jacob, Principles and Practice of Hand Turning..... 87
Hulme, F. Edward, F. L. S., Mathematical Instruments 87
King, J. W., Chief Engineer, War Ships..... 261
Lamb, Horace, M. A., Mathematical Theory of Motion of Fluids..... 175
Lubbock, Sir John, Scientific Lectures..... 439

Page.

Mott, Henry A. Dr., Was Man Created..... 524
Muter, Dr. John, F. C. S., Pharmaceutical and Medical Chemistry..... 439
Niaudet Alfred, La Pile Electrique..... 351
Noble, Capt., and F. A. Abel, F. R. S., Researches on Explosives..... 438
Penning, W. Henry, F. G. S., Engineering Geology..... 175
Piesse, G. W. Septimus, Ph. D., The Art of Perfumery.. 87
Prantl, Dr. K. and S. H. Vines, Elementary Botany..... 175
Ross, Lieut. Col. W. M., Blowpipe Analysis..... 439
Rowland, Henry A., Mechanical Equivalent of Heat.... 351
Schwendler Louis, Testing Telegraph Lines..... 261
Scott, Robert Forsyth, M. A., Theory of Determinants... 175
Shock, Wm. M., Steam Boilers 523
Urquhart, G. W., Electric Light..... 262
Ville, George, and William Crookes, F. R. S., Artificial Manures..... 262
Wagoner, T. F., Hydraulic Mining..... 351
Boxes made from paper pulp.. 176
Brass and copper borings..... 88
Breech-loading field gun..... 437
Bridge at Harlem..... 518
Bridge construction..... 324
Bridge over the Tay....220, 259, 518
Bridge over the Volga..... 5 8
Bridge pin connections..... 459
Bridges, ancient—on the Tiber 331
Bridges, arches of..... 16
Bridges of London..... 518
Bridges, railway..... 322
Bridges, suspension..... 111
Brussels exhibition..... 368

Cable vs. Paddle-wheel..... 369
Cables, marine..... 502
Canal from Bordeaux to Harbonne..... 174
Car wheels in United States... 347
Cast steel rails..... 435
Ceylon, irrigation in..... 197
Channel tunnel..... 174
Chaplin on tensile strength.... 441
China, industries and art of... 343
Chinese steel..... 15
Classification of steel..... 520
Color blindness in railway employees..... 17
Compound locomotives..... 418
Compressed air locomotives... 225
Compressed steel..... 500
Compressing steel..... 393
Constants of the cup anemometer..... 341
Construction of bridges..... 324
Construction, the future of ... 109
Continuous brakes..... 436
Cost of motive power..... 440
Cost of tunneling..... 263
Crude iron trade..... 257
Cumberland iron trade..... 318
Cup anemometer, constants of 341
Curves on railways..... 46

Danube Commission..... 260

Page.

Decomposition of some explosives..... 249
Deep bore hole..... 87
Degree square, area of..... 457
Dephosphorization of iron.214, 497
Desiccating blast..... 365
Destroyed, 38-ton gun..... 86
Diffusive lantern..... 439
Distance between London and Teheran..... 88
Domestic motors..... 6
Drainage of Holland..... 250
Drift of projectiles..... 389
Dr. Siemens' electrical results. 169
Duration of steel rails..... 520
Dynamo-electric machines.... 31

Eddystone lighthouse..... 174
Edison's electric lamp..... 1
Edison's electric railway..... 515
Effect of sulphates on lime mortar..... 155
Elastic limit in metals..... 190
Electrical railway..... 436
Electric generation, economy in..... 204
Electricity..... 24
Electric railway, Edison's..... 515
Electric railways in Berlin..... 352
Electro-magnet, intensified.... 352
Endless rope railway..... 230
Engineering works..... 30
Engineering Societies:
American Society of Civil Engineers, 83, 257, 345, 440, 517
American Society of Mechanical Engineers..... 517
Engineers Club of Philadelphia..... 82, 257
Institution of Mechanical Engineers..... 276
Society of Engineers..... 169
Engine in the Tay raised..... 176
Engines, balancing..... 9
Enormous steamer..... 260
Errors of the Zeuner diagram. 353
Eruptive rocks compared with slags..... 419
Experiments in ship building.. 350
Experiments on piling..... 493
Explosions and explosives..... 92
Explosive agents.....40, 86
Explosives, decomposition of.. 249

Fire-damp Commission of France..... 280
Flat-stayed surfaces, strength of..... 166
Foresting in France..... 186
Formulæ for pillars..... 60
Forth bridge.....239, 433
French railways..... 144
French roof truss..... 89
Friction at high velocities..... 245
Fuel gas..... 376
Fuel, manufacture of..... 41
Fused iron and steel..... 435
Future of construction..... 109
Future of steel..... 160
Future of the iron trade..... 208

Galvanic batteries, work of... 329
General formula for beams..... 63
German railroad union..... 347
Greenwood's planing tool..... 473
Gun, new breech loader..... 523

Hardening of steel..... 242

	Page.
Heliography and signaling	479
High railway speeds	171
High velocities	245
Holland, drainage of	250
Hudson River tunnel	173
Hughes's locomotive	259
Hydraulic capstans	499
India, railway to	97
Indian railways	522
Industries of China	343
Ingot iron	469
Ingots, steel	123, 177
Iron and steel	285, 298
Iron and steel rails	346
Iron bridge connections	459
Iron crisis and its lesson	236
Iron, dephosphorization of	214, 497
Iron in architecture	106
Iron ingots	469
Iron in marine steam boilers	335
Iron, preservation of	145, 255
Iron production of the United Kingdom	258
Iron trade	208
Iron trade, Cumberland	318
Irrigation in Ceylon	197
Italian tramways	171
Jura, regulation of	38
Kirchoff on lightning rods	471
Law of fatigue	333
Lay torpedoes	261
Length of railways	173
Lighthouse characteristics	201
Lightning rods	471
Lime mortar, effect of sulphates on	155
Locomotive engines	9
Locomotives, compressed air	225
Locomotive station	521
London bridges	434
London, sewage of	49
London water supply	147, 348
Low temperatures of iron and steel	298
Machine tool for planing	473
Magnetic circuits	31
Magneto-electric machines	31
Maintenance of roads in France	434
Manufacture of aluminum and sodium	280
Manufacture of pressed fuel	41
Measurement of a paper-carbon horse-shoe lamp	1
Metals, elastic limit in	190
Mendon Aeronautical school	413
Mild winter in the arctic regions	176
Minifie Wm. (obituary)	524
Mortar	413
Motors, domestic	6
Mount Vesuvius, new station at the foot of	88
Mount Vesuvius railway	84, 171
New explosive	86
New field gun	523
New tool for machinists	473
Nile	405
Nitrogen in steel	170
Normal stress in beams	63
Obituary, Wm. Minifie	524
Old sanitary lessons reviewed	506
Open-hearth process	158
Orthogonal strains	190
Oxidation of iron	145, 255
Paper-carbon horse-shoe lamp	1
Periodic movements of the ground	175
Phonographic process in Japan	59
Phosphoric pig, reduction of	285
Piling, horizontal strength of	493
Pillars, formulæ for	60
Pin connections for bridges	459
Population of ten Western States	440
Portland cement, adulteration of	27
Practical strength of beams	444
Preservation of ancient bridges	331
Preservation of boilers	395
Preservation of iron	145, 255
Preserving steel from rust	157
Preserving wood	264
Pressed fuel	41
Pressure of wind	163
Prizes for inventions concerning railroads	84
Production of power by electricity	24
Projectiles, rifled	389
Projectiles, rotation of	211
Propelling boats by cable and paddle wheel	369
Public works in Spain	427
Pure water	152
Rack railway for steep inclines	230
Radiation of heat and temperature	45
Railway accidents	521
Railway accidents in 1876	496
Railway across Newfoundland	347
Railway bridge over the Volga	434
Railway bridges, strength of	322
Railway curves	46
Railway, electric	515
Railway in South Africa	486
Railways in England	486
Railways of India	522
Railway statistics	172
Railway to India	97
Railway, Woosung	36
Range finding	437
Reactions in open hearth process	158
Recoil of ordnance	86
Regnier's battery	263
Regulation of the Jura	38
Removing "scale"	171
Re-rolling old steel rails	440
Resistance of timber piling	493
Rifled projectiles	389
River conservancy	250
River Nile	405
Roof truss	89
Rotation for stability of projectiles	211
Russian surveys	348
Russian tool trade	347
Samples of wrought iron, etc	440
Sand bars of the Mississippi	176
Sanitary lessons reviewed	506
Sea beaches, traveling of	240
Secondary railways in France	436
Sensitiveness and isochronism in governors	169
Sewage of London	49
Shaft sinking, Belgian	504
Ship Viking	320
Signaling and Heliography	479
Signs for weights and measures	439
Silvering by cold rubbing	440
Slag, properties and utilization of	131
Slags and eruptive rocks	419
Solar heat, utilization of	263
Spain, public works in	427
Stability of elongated projectiles	211
Steam boilers, deterioration of	335
Steel and iron at low temperatures	298
Steel and iron from phosphoric pig	285
Steel classification	520
Steel compressed	500
Steel, compressing	393
Steel for tools	521
Steel, hardening of	242
Steel, history and manufacture of	83
Steel in China	346
Steel of the future	160
Steel product	171
Steel production	520
Steel rails	520
Steel trade of the world	84
Stephenson link motion	353
St. Gothard tunnel	88, 264, 434
St. Gothard tunnel disease	176
Stone bridges	16
Strength of beams	444
Strength of flat stayed surfaces	166
Strength of railway bridges	322
Strength of the stone arch	265
Strength, relative of bars	441
Strong water-gas system	376
Structure of steel ingots	123, 177
Styrian steel	521
Suspension bridges, theory of	111
Sydney exhibition	122
Tay bridge	176, 220, 259, 518
Tay bridge disaster	85
Tensile strength of bars	441
Testing rails	169
The dephosporization question	497
Tiber, regulation of the course of	331
Timber piling	493
Tool for machinists	473
Torpedo boats	260
Toughened glass tumblers	352
Traction on tramways	258
Tramway at Laufen	519
Tramway to Giant's Causeway	522
Transmission of power by electricity	24
Trans-Russian canal	433
Traveling of sea beaches	240
Truss, French	89
Tube wells	281
Tunnel, St. Gothard	521
Tunnel under English channel	432
Utilization and properties of slag	131
Velocity of projectiles	349
Viking ship	320
Waters of the Jura	38
Water supply	234
Water supply of Adelaide	173
Water supply of London	147, 348
Welding iron and steel	346
Welding process	520
Welding solid bodies by pressure	352
Wells	281
Wind, pressure of	163
Woosung railway	36
Work done by horses or men	333
Work of galvanic batteries	329
Zeuner diagram	253
